

# Is it worth it to join TAXI?

*We often get asked this question. Here's our answer:*

We can say from inside experience in the organization that Taxi is an honest, well-run company that is doing a service for both songwriters and the industry. The short answer to the question “Is it worth it?” is “Yes!” That is assuming you have a fair number of good demos of your songs.

If your song is strong, there is a real chance to get through to a recording (or a TV or movie placement if you also join their Dispatch service.) If the song needs work, you get constructive suggestions. Also, their Road Rally, held in L.A. in the first week of November, is worth the price of joining.

If you have decided to join Taxi now, please contact us at [pluboff@writesongs.com](mailto:pluboff@writesongs.com) and we'll be your referring sponsors.
